Beaufort County Community College
Faculty Senate Minutes

November 13, 2007

___

Call to Order

Emily Albera, vice-president, called the meeting to order at 2:00 p.m.

Purpose of the Meeting

The purpose of the meeting was to address the Instructional Affairs Committee recommendation regarding internet speed.

The Instructional Affairs Committee voted on a list of web sites that may be blocked, prioritized, or open during peak instructional hours to help with the problem of slow internet speed. The voting choices were Block, Open, and Prioritize. Block meaning never have access, Open- having access even during peak instructional hours, and Prioritize - web sites are not blocked completely, but during peak hours getting to the site would be extremely slow or impossible.

The Committee recommended that the Faculty Senate accept it's vote on the websites listed on the attachment.

Outcome of the Meeting

A motion was made by Grace Ann Whitley to block illegal sites. Lori McNiel seconded the motion and the motion carried.

A second motion was made by Dell Enecks to accept the committee recommendations on a trial basis with the understanding that we revisit the issue if this solution is not effective. The motion was seconded by Tim Mattimoe and carried by the Faculty Senate.

Adjournment

The meeting was adjourned at 2:45 p.m.

Respectfully Submitted,

Kimberly Mullis
Secretary
